

The Collection Process

The Grid Convertor uses a unique conversion formula for converting from one Grid to the other. This information is confidential and will be loaded only after a unit procures the device. The process for loading of the conversion formula has been arrived at jointly by ADG Mil Svy and DG Arty. The steps involved are given below:-

1. Step 1. Procure the Grid Convertor thorough GEM from Elena Geo Tech as per procedure given in the website <https://elenagc.com>.
2. The corporate sales team will intimate you about the readiness of the device for collection. Elena's Delhi team will also be informed by the corporate sales team.
3. On receipt of the collection order, the unit should send a representative to Elena's Delhi office located at Palika Milan Complex, Kaventer Lane, Diplomatic Enclave, New Delhi. Contact person, Sub Mahipal Singh, Mobile # 9485181262, Mail id delhi@elenageo.com.
4. Elena's Liaison person Sub Mahipal Singh will coordinate the loading of the formulae involved through OC, 12GASL, Delhi Cant. He will accompany the unit representative to 12GASL.
5. Once the formula is loaded, the device becomes "restricted" in classification. Hence the unit rep should take it directly from 12GASL to his unit.
6. 12 GASL and the Elena Geo Tech will keep a record of the serial number of the device, the unit and the unit rep collecting the device and intimate DG Arty – 8 about this. Please provide necessary details to OC 12GASL and Sub Mahipal Singh.
